CyberTrax2™ Release Notes

1. Introduction

This document notes the major new features and changes in this release of CyberTrax2. It also documents known problems and workarounds.

2. About This Release

CyberTrax2 Release 2.29.0 includes ASN 2.0 phase 3 functionality as well as new functionalities for Client and Internal applications and some bug fixes and changes.

3. Projects

3.1 ASN 2.0 phase 3

- **Mantis IDs:** 0003937: *[ASN 20] ICom/Com re-design*

Description of Change: Extend scope of communication center in CT2 to provide the sending of comments to all possible recipients (Shipper user, Planner user, jaguar user, client user depending on shipment record and user who has ability to access it) via e-mail. This functionality is available on CT client user interface (Client Application), ASN client user interface (Client Application) and Jaguar operator user interface (Internal Application)

- **Mantis IDs:** 0003927: *[ASN 20 ph3] Default units of measurement & currency types*

Description of Change: Ability to set the default units of measurement & currency types when entering ASNs. This includes currency type, weight, and dims units.

- **Mantis IDs:** 0003963: *[ASN 20 ph3] add CBM/CFT to all the "View ASN" windows*

Description of Change: Ability to show CBM/CFT (as they were entered) in all "View ASN" windows as well as the confirmation pop-up window for ASN.

- **Mantis IDs:** 0003926: *[ASN 20 ph3] SOW 1 Download to Excel Ability to select fields/columns and specify sequence/order (for ASN 2.0)*

Description of Change: Ability to set output fields and sequence order of fields/columns for download to excel functionality

4. Bugs Fixes and Changes

4.1 Dashboard Report - Client application

- **Mantis IDs:** 0003959: *Client dashboard reports*

Description of Change: Ability to enable dashboard reports to client users on client application.

4.2 Report

- **Mantis IDs:** 0003552: *Carrier & Client Statistic Reports – Change to Output format*

Description of Change: Provide additional tab for output format for carrier & client statistic reports. This additional tab is displayed in the data format so that the user can do analysis and easily to create pivot table,...etc from the data

- **Mantis IDs:** 0003974: *(Past Due) include “port dates” in the current “past due arrival / past due departure” reports.*

Description of Change: Ability to display Port of Loading/Discharge ETAs on Arrival Past Due and Departure Past Due reports as an output fields

4.3 Accounting

- **Mantis IDs:** 0003807: *(P/L for mult CTs) Change logic to make sure same CT/GRP does not appear on reports that cover mutually exclusive time intervals*

Description of Change: Resolved a bug to prevent CT records from being listed multiple times on P/L reports in a different/separate time periods.

- **Mantis IDs:** 0004036: *(P/L for mult CTs) bug: “Revenue Recognition Date” filter works incorrectly*

Description of Change: Resolved a bug for Truck ocean shipments for this date to be the earliest among Actual collection dates that linked to containers to work properly

4.4 GM Split

- **Mantis IDs:** 0003958: *[GM Split] incorrect Profit/Loss Amounts on P/L tab for some shipments*

Description of Change: Resolved a bug to display the amounts on “P/L tab” correctly.

4.5 ASN 2.0

- **Mantis IDs:** 0003936: *[ASN 20] Bug: Description “no match found” for correct SKU.*

Description of Change: Resolved a bug on SKU number when user entered SKU that is not on the uploaded list in the system for the first time and then try to correctly enter SKU number that is in the system, system would show description as “no match found” instead of the correct description even though the SKU number is in the system. This bug has been solved to display correct description if SKU number is listed in the system

4.6 Misc

- **Mantis IDs:** 0003948: *Update New logo to Internal and Client application (homepage, log on form) Remove unnecessary buttons*

Description of Change: New Jaguar Freight website was launched in January with a new logo. Replace the old Cybertrax logo on homepage and log on form on Client and Internal Application with the new logo

- **Mantis IDs:** 0004003: *Remove the old CyberTrax logo from all the reports*

Description of Change: New Jaguar Freight website was launched in January with the new logo. The old CyberTrax logo has been removed from all the reports

- **Mantis IDs:** 0003986: *Include the Sailing Schedule link to client and internal application homepage*

Description of Change: Sailing Schedule link button is available on client and internal application homepage. For client application, this functionality is a switch that can turn on/off for each client company on client company admin. For internal application, this functionality is available to all internal users.

5. Known Bugs and Limitations (none)
