CyberTrax2™ Release Notes

1. Introduction

This document notes the major new features and changes in this release of CyberTrax2. It also documents known problems and workarounds.

2. About This Release

CyberTrax2 Release includes some fixes on miles value retrieved from TMS loadplan to handle the empty value from Descartes by sending “0” value instead of empty value, changes on access parameters to Data2Logistics FTP server and also allow system to support Excel 2007 for PO upload and other possible uploads in CT2, add some validation for containers and contents, list duplicated container numbers only once in one master. Provide an additional filter on main report to make more criteria searchable.

3. Projects

3.1 Operation

- **Mantis IDs:** 0004728: *(Ops)Add validation for containers without contents*

Description of Change: Add validation when user updates actual departure date to avoid saving a master shipment that contains no contents on containers table.

- **Mantis IDs:** 0004731: *[OPS] Change: Not allow container numbers duplicating*

Description of Change: Display duplicated container number only once in a master for all shipments that have the same container numbers.

4. Bugs Fixes and Changes

4.1 Report

- **Mantis IDs:** 0004725: *[Main report] Provide an ability to add a list of values to "Customer Ref # contains:" filter*

Description of Change: Ability to search using filter “Customer Ref# contains:”

- **Mantis IDs:** 0004727: *[Main report] bug: Incorrect TEU calculations*

Description of Change: Fixing bug on incorrect TEU calculation on all reports.

5. Known Bugs and Limitations (none)

6. Testing

All items have undergone and passed Quality Assurance, Systems Integration, and User Acceptance testing. Please refer to below for list of testers.
