# CyberTrax2™ Release Notes

## 1. Introduction

This document notes the major new features and changes in this release of CyberTrax2. It also documents known problems and workarounds.

## 2. About This Release

CyberTrax2 Release 2.43.3 includes some new features to upload data for Overton to include history of custom dates. Change to implement “Freight Class” field to be configurable in ASN portal for mandatory/optional field validation. Implement “customs” category of output fields including date for customs. Implement re-labeling of credit term on sale invoices. As well as some bug fixes on operation for missing files in files tab, missing some labels on view mode that had been replaced by “assigned to Agent” on operation. Bug fixes on create template from CT editor as well as the java error exception when agent ops user was trying to post a comment on comment tab. Bug fixes on main report and where is reports to show output correctly.

## 3. Projects

### 3.1 Ops

---

---

- **Mantis IDs:** 0005083: *Overton - Create "Upload data" mechanism for Overton*  
**Description of Change:** Implement functionality to upload data importing from excel that is received and provided by Overton to update and support additional fields in our database. Hard code broker Overton and bill to Elizabeth Arden – Roanoke. If there is already a value in CT record, do not change or replace the value. If there is no value in CT, then leave the field for value empty. Include the history of custom dates.

### 3.2 ASN

---

---

- **Mantis IDs:** 0005127: *EA > "Freight Class" is not mandatory field*  
**Description of Change:** Implement to use “Freight Class” field with no validation of mandatory field for shipper. This field is configurable in ASN portal admin to enable the field with or without validation.

### 3.3 Report

---

---

- **Mantis IDs:** 0005113: *[Main report] Add "CUSTOMS" category of Output Fields*  
**Description of Change:** Add “CUSTOMS” category of output fields, including Dates for Customs.

### 3.4 Accounting

---

---

- **Mantis IDs:** 0005126: *(Sales Invoice) Relabel credit terms*  
**Description of Change:** Change labels “Net XX days from the invoice date” with “Term – Net XX days” except if days = “0” then label “Terms – Due upon receipt”.

## 4. Bugs Fixes and Changes

### 4.1 Ops

---

---

- **Mantis IDs:** 0005128: *(Ops) bug: Missing file in CT Files tab*  
**Description of Change:** Fix a bug for a missing file in CT Files tab. The bug was when user tried to download a pdf of commercial invoice and delivery note in “Files” tab (File upload center) of a shipment and system generated error: "File doesn't exist: /var/cybertrax2/ct/ct/uploaded\_files/090/ct547549\_commercial invoice + delivery note.pdf (No such file or directory)."
- **Mantis IDs:** 0005130: *(Ops) bug: Missing labels in View mode of CT editor*  
**Description of Change:** Fix a bug for missing labels in view mode of CT editor. This bug was affected by the implementation of “assign to Agent” field feature for operation. This bug has been fixed and all the labels are restored on view mode.
- **Mantis IDs:** 0005133: *IR > Bug: Exception when Agent OPS user is trying to send or post a comment in Com tab*  
**Description of Change:** Fix a bug on java error exception when agent ops user is trying to send or post a comment in com tab.
- **Mantis IDs:** 0005134: *IR > Creating of CT Templates from CT Editor does not work in Agent UI*  
**Description of Change:** Fix a bug for creating of CT templates from CT Editor in Agent UI.

### 4.2 Report

---

---

- **Mantis IDs:** 0005131: *[Main report] "Importer of record" and "Consignee for customs" fields are empty in Output*  
**Description of Change:** Fix a bug on result of main report to show “importer of record” and “consignee for customs” correctly on output fields.
- **Mantis IDs:** 0005120: *(Reports) bug: Where is and Main reports don't search the Truck-Ocean CTs by container number*  
**Description of Change:** Fix a bug on Where Is and Main reports to be able to search shipment by container number for Truck-Ocean mode of transportation.

## 5. Known Bugs and Limitations (none)

## 6. Testing

All items have undergone and passed Quality Assurance, Systems Integration, and User Acceptance testing. Please refer to below for list of testers.
