CyberTrax2™ Release Notes

1. Introduction

This document notes the major new features and changes in this release of CyberTrax2. It also documents known problems and workarounds.

2. About This Release

CyberTrax2 Release 2.39.3 includes some changes to remove validation on download container manifest on CyberTrax to allow user to download even though there is more than one E0. Client company. Leave the validation to prevent client from downloading container manifest when there is more than one E0. Client company and update the warning message to show "Unable to process". Remove a validation on submit a booking request and shipment instruction from the master shipment if there is no CT attached to its master. As well as bug fix on saving the filter setting on schedule report to save correct setting.

3. Projects

3.1 Operation

- **Mantis IDs***: 0004845: [Master] Validation for CTs with different Client Companies when generating Container Manifest Report*
  Description of Change: Remove a validation to allow internal user to download manifest if there is more than one E0. Client company but leave a validation as is on client application and change the warning message to "Unable to process" when client is trying to download manifest that contains more than one E0. Client Company.

3.2 Cargosmart

- **Mantis IDs***: 0004743: EDI to CargoSmart*
  Description of Change: Provide ability to send EDI 300/304 from Master without shipments attached to a master.

4. Bugs Fixes and Changes

4.1 Report

- **Mantis IDs***: 0004846: (* Scheduled Reports) Bug: "Billed" filter on "Conditions Filters" tab of Main Report is not saved correctly*
  Description of Change: Fix the conditions filters to save the value of "Billed" filter on Main report in setting. The bug was the value of the setting did not save correctly when the user left the page of schedule report and went back into the report, the value of filters did not save.

5. Known Bugs and Limitations (none)

6. Testing

All items have undergone and passed Quality Assurance, Systems Integration, and User Acceptance testing. Please refer to below for list of testers.
