CyberTrax2™ Release Notes

1. Introduction

This document notes the major new features and changes in this release of CyberTrax2. It also documents known problems and workarounds.

2. About This Release

CyberTrax2 Release 2.27.3 includes 1 urgent change for Admin – BillToParties module.

3. Projects (none)

4. Bugs Fixes and Changes

4.1 *Ops:Admin

Mantis IDs: 3790 (*Admin: Addressbook*) **BUG:** *exception while saving Bill To Parties with empty (null or blank) "VAT Number"*

Description of Change: Resolved a bug in AddressBook's BillToParties where a user would not be able to save a new entry if the VAT field was empty. The workaround was to enter in a temporary placeholder for the VAT number however it was brought to our attention that this VAT number was being displayed in a number of invoices. The bug was resolved and users can now create new BillToParties w/o a VAT number.

5. Known Bugs and Limitations (none)

6. Testing

All items have undergone and passed Quality Assurance, Systems Integration, and User Acceptance testing. Please refer to below for list of testers.
